SAMAN AXEL NOEL KPLE

Toronto, ON | (437) 231-5120 | axelkple@gmail.com

SOFTWARE DEVELOPER

Full-Stack Web Development | Database & SQL | Analytical Problem-Solving

HIGHLIGHT OF SKILLS

- **Programming Languages:** C#, Java, Python, SQL, JavaScript
- **Web & Application Development:** HTML, CSS, React, Node.js, Express.js, .NET, Responsive Web Design, Web Applications, UI/UX
- **Databases:** Oracle SQL, Relational Database Design, Database Management, ERD Modeling
- **Data & Machine Learning:** Pandas, NumPy, scikit-learn, Jupyter Notebook
- **Development Practices:** Agile, SDLC, Requirements Analysis, Technical Documentation (SRS/SSD), Debugging, Testing, Quality Assurance
- **Development Tools:** Git, GitHub, Visual Studio Code, Visual Studio, Eclipse, Anaconda, Spyder
- **Languages:** Fluent in English & French (Bilingual)

EDUCATION

Artificial Intelligence – Software Engineering (COOP) Advanced Diploma

Centennial College, Toronto, ON | *September 2025 – Present*

- **Relevant Coursework:** Python, Web Interface Design, Software Requirements, Unix/Linux, C#, Database Concepts (SQL, Oracle), Client-Side Web Programming, Web Application Development, Java Programming, Introduction to AI, AI System Design

Software Engineering MASTER II

GROUPE Ecole des Hautes Etudes Commerciales-Abidjan, CI | *September 2017 – Juin 2019*

Relevant Coursework: Web Design, Statistics and Decision-Making, Merise I, Unix – Linux

PROFESSIONAL EXPERIENCE

AI French Transcriber | LXT AI

2026 – Present

- Processed, validated, and transcribed French audio datasets to evaluate and optimize speech-to-text models and generative AI systems.
- Conducted data quality assurance and output evaluation to improve AI dataset accuracy, natural language understanding, and model training performance.

Functional Analyst / Business Analyst | GS2E (Groupements des Services Eau et Électricité)

2021 – 2024

- Oversaw functional acceptance testing (UAT) for key internal business applications, guaranteeing software reliability prior to production deployment.
- Developed test strategies, planned execution cycles, and managed bug-tracking lifecycles using issue-tracking platforms.
- Collaborated with cross-functional development teams to validate deliverables against Software Requirements Specifications (SRS) and user expectations.

Full-Stack Developer | MTOPO WEST AFRICA

2018 – 2021

- Maintained and upgraded multi-tier web applications, ensuring high availability, system reliability, and performance optimization.
- Engineered and deployed end-to-end full-stack features using front-end frameworks and back-end database integrations.
- Performed code refactoring, system debugging, and database query tuning to enhance application responsiveness and support scalability.

Full-Stack Developer | Virtual Network Enterprise

2016 – 2017

- Maintained legacy web applications, resolved critical bugs, and integrated new features to improve user engagement and site functionality.
- Designed, tested, and implemented responsive UI components and server-side logic across client-facing platforms.

Academic Projects

Responsive Restaurant Website | *HTML, CSS, JavaScript, Google Maps API*

- Built a fully responsive web application allowing users to browse menus, place food delivery orders, and process online payments.
- Integrated the Google Maps API to provide locations and interactive directions.

Oracle Database System | *Oracle SQL*

- Designed a relational database system from initial stakeholder analysis and business rules to ERD modeling and full implementation.
- Executed complex SQL queries for data retrieval, manipulation, and validation.

INTERESTS

- **Gaming & Esports:** Competitive multiplayer online, sports, simulation, and real-time strategy games; active community participant.
- **Anime & Visual Arts:** Character design, illustration, digital art, and visual concepts.
- **Problem-Solving:** Logic puzzles, riddles, and complex analytical thinking challenges.
